Business - B2B | Consumer - B2C | Enterprise - B2E

Custom Software Development. Onshore Development Team. Made in the U.S.A.

COMPANY OVERVIEW

September 22nd, 2016

About

Russ Software LLC is an Independent Software Vendor (ISV) and custom database application developer specializing in Mobile, Web, Software as a Service (SaaS) and Desktop/Server development for business, commercial and enterprise applications. We are privately owned and located in Bedford, Texas between Dallas and Fort Worth.

Russ Software LLC was founded by Russ Brown in June 2009 after working for over 30 years in a wide variety of increasingly challenging information technology and accounting positions for both small businesses and large corporations, public and private, in Texas and Ohio.

Mission

Software is not perfect. Software is not easy. Software is good.
